Topic: License Renewal for K-LOVE

Oct 27, 2004

K-LOVE radio has had an incredible positive in our communities across the continent and here locally in Sacramento, CA as well by offering hope to all, and communicating wonderful uplifting music and ministries that impact our society in such a positive way. The station frequency in my area that we can hear K-LOVE on is 99.1, 99.3 and 99.5. I have been a K-LOVE listener for approximately 15 years now. I could not imagine my life without K-LOVE and the wonderful music they play. Through the years I have had times where I needed a word from a friend and K-LOVE was there for me. Take for example a deep personal loss such as a divorce that I had no interest in that I had to face alone. Or sudden job losses after you have relocated your family to another city hundreds of miles away from your family or relatives. K-LOVE was there for me during these times they keep me on a positive path that was constructive and a responsible adult in my community. K-LOVE has always been there not only as a radio station that plays Christian music, but more importantly a beacon in the storms of life. There are Pastors available 24 hours a day 7 days a week to listen to those who need someone to talk to when they are at the end of there rope and considering ending there life, or making bad life changing decisions that tear at the very fabric of our society where crime and violence is so abundant. K-LOVE can reach out with a personal touch a come along side an individual who is hurting, and offer them hope when all seams hopeless.

If you where to seriously consider not granting the broadcast license to K-LOVE think of all the negative impact you would set in place **immediately**. All of the emergency personal would know have to deal with these individuals who might chose to act on that destructive thought and **many more innocent people would be caught in the line of fire** when **someone who was at the end of there rope know choices to hurts others with themselves because know one would listen, because the people who could have stopped an horrific event where now told to go home because there broadcast license has been taken away. I am strongly asking that you do not remove this resource from everyone so that K-LOVE can be there to encourage and minister to our hurting world. I am hoping that you will see the strong value K-LOVE adds to our society in kind and loving way** without screaming unproductive words of despair, instead **words of acceptance and grace for all.**
